It thereupon demanded that the sunset sign be torn down and the gates immediately opened to the public. "Render unto the people the things that are the people's," was its watchword. It called a public indignation meet. ing in Stuyvesant Hall on July 25, and stir ring resolutions were passed demanding prompt action by the authorities. The work of THE EVENING WORLD was thus officially recognized by the assembled citizens:

Resolved. That the thanks of this meeting and of the citizens of this district be returned to the EVEN-ING WORLD for its discovery of the injustice done to the people, and, for its persistence and sincere agitation of the subject, and that a duly certified copy of these resolutions be presented to sate EVENING WORLD.

A resolution in behalf of the opening was then drawn up and passed by the Board of Aldermen, July 31, at the instance of THE EVENING WORLD. In addition to this, blank petitions were printed and circulated and thousands upon thousands of signatures obtained. Step by step the good cause was resolutely fought, until on Aug. 28, the Park Commissioners unanimously ordered the opening of the park in the evening. Electric lights were promptly placed in the park, and on the evening of Sept. 1, it was thrown open to the public for the first

It was an carnest of what the civilization of this century should bring. But in less than a year from the day the law was passed another bill repealing it was presented to the Legislature, and so strong were the exertions of the monopolists and oppressors of labor in forcing it forward that the case of the workers seemed hopeless. THE JOKE CONTEST.

Tournament of Would-Be Humorists With Bill Nye as Judge.

THE EVENING WORLD for a prize of \$25 for the most original joke was opened July 30, with Mr. Bill Nye as judge. The jokes submitted were large in number, over five thousand being re-

ceived from all over the country. As Judge Nye observed:

"People who had not joked for seventy. five years sat up in bed and wrote something for the contest. Young people neglected time in over thirty years. And it will remain their teething in order to compose jokes. open for the benefit of the generations that Antiquarians came forward with rare things ther had found at Herculaneum and lying around in the waste-paper baskets of the mound-builders."

In quality the jokes were certainly not all that could be desired. A very large proportion of the good jokes were not original, and many of the original ones were not good. The competition proved that it is easier to read a good joke than to write one. On Sept. 29 Judge Nye awarded the prize to Master Raymond E. Kidder, of 206 East Eighteenth statet, a budding humorist of the age of nine.

But THE EVENING WORLD knows no such word as fail. For over six weeks one of its ablest representatives was employed in quietly working up another phase of the case, Josie's uncle, John Shephard, jr., of Rochester, was anxious to adopt and educate the boy. A veritable mountain of evidence was secured, showing Mr. Shephard's excellent character and ability to care for his nephew. The Mayor of Rochester, the charitable societies of the locality, judges, lawyers, clergymen and scores of leading citizens took a personal interest in the case and lent their testimony. On Sept. 17 this evidence was laid before the Asylum Committee. Its conclusiveness was admitted, and the exiled Josie was ordered to be returned to his relatives, and Grandma Shephard's heart danced for joy.

Justice and the cause of humanity had triumphed. THE EVENING WORLD had kept its promise to the letter.

"THE EVENING WORLD" PHYSICIAN.

A Journalistic Good Samaritan Among the

deplorable features of crowded tenementhouse life in summer. THE EVENING WORLD resolved to dosomething towards alleviating the sad condition

of affairs. It accordingly engaged Dr. Chas. N. Cox, a physician in excellent standing, to devote himself in its behalf during the torrid weeks to the gratuitous treatment of the sick children of the poor.

The doctor began his good work July 11. Dan after day he went his rounds among the abodes of poverty, and plenty of work he found to do. He gave each individual case as careful attention as could have been bestowed upon the child of wealth. Several of the city dispensaries kindly agreed to honor his prescriptions without charge when patients were too poor to pay. The manufacturers of infants' food generously donated many cases of their preparations for his use. Kind-hearted readers, touched by the tales of suffering and abject destitution printed from day to day, sept scores of bundles of dainty baby clothing for distribution.

Though one physician could cover only small proportion of the immense field for such work in this great city, it is remarkable how much was actually accomplished by diligent effort. Dr. Cox's senson closed with the last week of August, and his official report, published Aug. 29, showed that he had visited 562 families and treated 238 little patients. He had but three deaths to record. How many of the little ones owe their prolife to his treatment none can tell. The season's work was very appropriately closed with a big excursion given by The World, to which all of the wee patients, with their mothers, were invited.

THE WAR ON POLICY. How a Salutary Lesson Has Been Taught These Meanest of Gamblers

TS war on the policy gamblers is another of THE EVENING WOLLD'S battles of which it may justly be proud. The police admitted knowing of the existence of this petty gambling, but confessed their inability to gather con-

victing evidence. The policy shop is the meanest den of vice. There women and children are robbed of their pennies as well as the clerk of his salary. The Evening World was determined to fight them down. For over a month two of its brightest young men devoted their whole time to unearthing these gambling places and getting information about the men who run them.

They discovered more than one hundred policy sho s, and obtained convicting evidence against six of the most notorious poltey writers.

At the head of a squad of policemen an EVENING WORLD reporter led the raid on to sympachy than by these most despi able of gamblers. Their the putable story of doors were broken in, and the six were made

ular indignation ran high. Many plans were proposed by by a bobtail car. Popwhich the jugger railroad companies might be compelled to put

conductors on their cars. It remained for THE EVENING WORLD, however, to map out a campaign by which this result could be accomplished.

It held that the driver of the bobtail car, being ordered by the Company to drive, make change and act the part of the con uctor, was no more responsible than the Company, and in the case of an accident the Company was equally responsible with the driver. In the case of Mrs. Levy it claimed that the directors of the Twenty-third Street Railroad Company were as guilty of manslaughter as was the driver of the car that killed her. The law was carefully looked up, and finding that once more it could strike a blow in the people's cause, The Evening World pushed the case. It was ably aided by Coroner Messemer.

In spite of the protests of the Company's many counsel and the taking of the case to the Supreme Court, Coroner Messemer's jury brought in a verdict holding the directors responsible for Mrs. Levy's death. This and the concentrated attack against the sestem of conductoriess cars brought the Company to its senses, and it has pledged itself to abolish the bobtail car entirely from its tracks. And this is one more victory added to THE EVENING WORLD'S long record.

ABOVE ALL A NEWSPAPER.

A Record of Some of "The Evening World's " News Achievements. Above all a newspaper.

That has been the spirit of THE EVENING Wonne from the first day of its publication. Animated by this spirit, it has gone through this first year of its existence in a way which has brought it distinction both for the broadess of its policy in the pursuit of news and for the originality of its methods.

Indeed, in its originality, as well as its completeness of resource, is found the key to the paper's phenomenal success and its

growth in popular esteem. Up to the time that THE E VENING WORLD made its appearance in the field, no atternoon journal in New York had been conducted upon the true journalistic principle of giving not only the news, but all the news. This was for lack of disciplined forces to gather and serve the news matter in the time allowed for the work each day, that time being of necessity much more limited, with afternoon journals than in the case of the morning publications.

The new paper very speedily began to show its strength in this respect. It has continued

to do so up to this ha py day of its first anniversary, and the strength has grown with its well-directed exercise.

The Evening World has been a complete paper for itself every day, with its own stories worked up by its own corps of intelligent and indicatigable reporters.

In no case has the paper's completeness of

work I cen better illustrated than in the mat-ter of William R. Fo-ter, jr.'s swindling operations with the Produce Exchange Gra-tuity Fund. The disclosures attending this case formed in the first place a splendid news beat for The Evening World There the details were gathered by a specially as-signed force of reporters larger than the whole staff of most of the parer's afternoon

contemporaries.

The result was a story so complete that when the morning papers came to the case they found the ground all covered and could only enlarge upon what had already been

This was a reversal of the established order of things in New York newspaper work.

But if The Eveniso World were to launch itself upon a narration of the news beats and scoops which have marked its course all through the year, its columns to-day would contain little else.

plished in Journalism. There would be a great void in the stories of THE EVENING WORLD'S first year triumphs if no mention were made of its record as a daily purveyor of news from all departments

of outdoor sport. To use a highly improper but wonderfully expressive mixture of metaphor, the young paper's Sporting Extra has outsailed, outrun and knocked out all competition in this di-

rection. Appearing upon the streets promptly at the close of the events of greatest interest, day by day, the Extra has been eagerly sought and read by the multitude, while its bright points in news-gathering have been taken advantage of and copied by contemporaries onick to appreciate the excellencies they could not originate.

Because baseball has been a topic uppermost in the minds of Gotham's most patriotic majority, the issuance of the Extra each day has usually followed thefinal play of the game wherein our own Giants participated, and in this field, as a complete chroni-cler of the d.amond's cont.nuous events, The EVENING WORLD points with pardonable

Dr. Greene, the great specialist in the cure of chronic diseases, of 35 West 14th street. New York, gave the second of his new free course of magnificently illus-trated lectures before a vast sudience in Chickering Hail last evening. If not the most beautifully flus-trated, it certainly was one of the most interesting and nstructive of Dr. Greens's wonderfully entertain

Dr. Greene is a deep student of diseases and ranks high as an authority, particularly as a specialist t chronic or long-standing diseases, in the cure of which he undoubtedly stands without a rival. His long inestigations among diseases naturally led him to persevering and patient researches for remedies to our them. Seeing so much of the injurious effects and harmful results to the sick from the use of poisonous drugs, he was led to study and investigate the harmles ver table medicines found in the laboratory of nature those healing, strengthening and invigorating remedies which an all-wise Providence has so bountifully provided for the cure of all our ills,

The Doctor's success in the cure of disease by means of these natural medicines has been most remarkable. No other mode of treatment ever before cured so large a percentage of chronic or lingering diseases. Ce to other form of tre tment is so widely praised and

Medivarious symptoms and conditions of chronic effections, and it is rare indeed that sufferers from any form of ong-standing disease, who apply to him for restoration from their complaints, fail to receive a cure by the use of his wonderful remedies,

One of his discoveries in medicine has become of orld-wide celebrity, and taken its place as the recognized cure and standard remedy for nervous diseases This, it need hardly be stated, is his wonderful discov ery known everywhere as Dr. Greene's Nervara Nerve Tonic. Scarcely a drug store can be found at the present day where sufferers from nervous diseases cannot obtain this marvellous remeds, for it is recognized by all-physicians, druggists, and the people alike—as the greatest and best medicine ever discovered for these

There is no other known remedy which is applicable to so great a number and to so varied kinds of symp-toms and conditions as Dr. Greene's Nervura Nerve Tonic. This is because it is a true nerve remedyand a builder up of nerve, atrength and energy. It is an acknowledged fact that a very large proportion of the diseases which afflict humanity are of a nervous character, or at least have their foundation in a weakened, exhausted, or enervated condition of the nervous system. This readily explains, therefore, why this wo erful discovery of Dr. Greene so quickly and perfectly cures almost every person who uses it. It effects oures because it goes directly to the cause of the disease; that is, the weakened and exhausted nerve power. By thus removing weakness and restoring tone, vitality and strength to the tired brain and worn-out nerves, a sure ure is always the result.

Thousands of people need this valuable remedy who

The Famous Canvas-Back.

[From the Boston Herald.] A game-dealer in Philadelphia has received an order from Prince Biamarck for a dozen pairs of the order from Prince Blamarck for a dozen pairs of the first canvas-back ducks that come to market. A similar order has been re ceived from Wilkie Collins, and other English ectoures, like Heary Irving, keep a sharp eye out for these succelent birds from the Chesapeake. No country in the world can match either these birds or some of the other specimens that are the prey of our sportsmen. Wilkie Collins is said to have written his best novel on the inspiration furnished by New Jersey snips.
